

**8 May 2020**

**To: Industry Employers and Employees.**

**Project Based Online Monitoring and Reporting Tool – Construction Sector.**

The BCCEI received a request from the South African Forum of Civil Engineering Contractors (SAFCEC) to distribute the attached document regarding a free-to-use online, mobile-friendly reporting and monitoring tool that will assist both the contractor, government and relevant stakeholders to monitor COVID-19 on construction sites. Doing this, will address the regulations under the Disaster Management Act of 2002 and requirements of the Regulations issued by the Minister of Employment and Labour on 28 April 2020.

The tool is available to all contractors within the South African construction sector.
